REQUEST FOR EXPRESSION OF INTEREST FOR PREQUALIFICATION

PROVISION OF ONSHORE METEOROLOGICAL SERVICES

TOTAL E&P UGANDA B.V. ("COMPANY"), an Oil and Gas exploration company, seeks to prequalify reputable vendors to provide Onshore Meteorological services in Uganda (Bullisa Area). These services will include, but not be limited to, the following:

- Provide and install an autonomous weather station within COMPANY's existing facilities in order to monitor:
 - Wind Speed and Direction
 - Air Temperature
 - Relative Humidity
 - Atmospheric Pressure
 - Rainfall
 - Moisture/Soil temperature
 - Solar radiation
- Provide autonomous power supply and real time data acquisition
- Periodically maintain the station
- Calibrate the installed equipment
- Provide recorded data and associated reports

Vendor minimum requirements:

- a) Experience/performance in similar contracts within Uganda, East Africa or internationally in compliance with International Standards
- b) Suitably qualified and experienced personnel;
- c) Certified to provide, install, maintain & calibrate the proposed equipment to perform the above described Service at international standards
- d) Sufficient resources within Uganda to perform the services;
- e) Financial capability to perform the above described Service;
- f) H3SE policy in compliance with International Standards to perform the above described Service.

Interested companies who meet the aforementioned minimum requirements and have the capability to provide the services listed above, should request a pre-qualification questionnaire by sending an email to: EP.PREQUALIFICATION-UGEP@total.com on or before 12h00 Kampala time **August 12, 2016**. Prequalification questionnaires will be subsequently issued at the closure date of the Expression of Interest.
